

Current Job Openings:

- Senior Landscape Architect/ Project Manager (10+ relevant experience)

Description:

James Hyatt Studio is a highly personalized, and internationally recognized Landscape Architecture firm specializing in luxury resorts, up-scale communities, and private residential estates and ranches. Rich with exceptionally detailed outdoor spaces, this studio's work can be seen at the most exclusive resorts, residential estates and upscale retail environments across the United States and throughout the world including Indonesia, United Arab Emirates, Saudi Arabia, the Caribbean, Central America, Mexico, Japan, China, England, Switzerland and Portugal. We have also been featured in exclusive magazines including Architectural Digest. Current projects include locations in California, Texas, Wyoming, Colorado, and Hawaii. Occasional travel may be required.

James Hyatt Studio is seeking a qualified Senior Landscape Architect/Project Manager with a proven record of work experience in all phases of design; concept through implementation. Successful candidates will employ vision and creativity throughout the entirety of a project, support and contribute to team efforts while also being comfortable and confident working independently. Being a small office, we encourage an entrepreneurial spirit, we expose team members to all aspects of design, and we offer a hands-on experience with an expectation that everyone is able to contribute. Prior experience in high-end residential design and resort/hospitality projects serving a demanding client base is desirable. Most of our designs are highly custom, so prior experience with custom detail drafting is required.

JHS is growing and potential opportunities for advancement and responsibility will become available with proven skills, experience, and track record.

Salary range for this position will be \$110,000,000 to \$150,000 commensurate on experience, skills, talent, and knowledge.

Qualifications:

- Bachelor's or Master's degree in Landscape Architecture from an accredited university,
- Possess both a strong technical aptitude and discerning design sense,
- Adherence to exceptional performance standards,
- Excellent organizational skills,
- High attention to detail at all levels of design and practice,
- Strong work ethic,
- Respectful and thoughtful peer to peer communication skills,
- Ability to discuss, develop, and communicate ideas with verbal and graphic clarity,
- Ability to present plans and ideas to high profile clientele,
- Experience in drafting construction documents and custom detailing required,
- Advanced skills in Adobe Creative Suite, AutoCAD, and Microsoft 365 required,
- Advanced skills in Sketch-up, Rhino, and Lumion are desirable,
- Experience with high end hospitality and estate residential projects is desirable,
- Willing to mentor coworkers and organize "lunch and learns" to improve collective skillsets,
- Professional license in Colorado, California, Nevada, and/or Texas is desirable.

Responsibilities for this position will include assisting and leading development in all phases of the design process from Schematic Design through Construction Documents and Construction Administration, brainstorming with a Principal and project team members on design ideas and solutions, working out technical details, grading and drainage, and research. Project Manager responsibilities will include in-house team coordination and communication, client and consultant communication, consultant coordination, internal project tracking. This position requires flexibility and willingness to move from project to

JAMES HYATT STUDIO

project serving in a variety of roles as needed. Strong consideration will be made for those who have highly refined verbal and graphic communication abilities. This is a dog friendly office, so must be willing to work in the presence of canine companions.
